SUPPLEMENTARY INFORMATION:

Agenda: The meeting presentations will be heard, viewed, captioned, and recorded through an online teleconferencing platform. On October 20, 2022, the committee will discuss, make recommendations, and vote on clinical information related to the *De Novo* request for the AvertD Test sponsored by SolvD, Inc. The AvertD is a prescription, qualitative genotyping test used to detect and identify 15 clinically relevant genetic polymorphisms in genomic deoxyribonucleic acid (DNA) isolated from buccal samples collected from adults. The 15 detected genetic polymorphisms are involved in the brain reward pathways that are associated

with opioid use disorder (OUD) and identify patients who may be at increased genetic risk for OUD. Information from AvertD provides patients 18 years of age or older and healthcare providers with objective information to be used for informed decision-making prior to the first prescription of oral opioids for acute pain. The AvertD is intended to be used in combination with a clinical evaluation and assessment of the patient.

FDA intends to make background material available to the public no later than 2 business days before the meeting. If FDA is unable to post the background material on its website prior to the meeting, the background material will be made publicly available on FDA's website at the time of the advisory committee meeting, and the background material will be posted on FDA's website after the meeting. Background material will be available at <https://www.fda.gov/AdvisoryCommittees/Calendar/default.htm>. Select the appropriate advisory committee meeting link.

Procedure: Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. All electronic and written submissions submitted to the Docket (see ADDRESSES) on or before October 4, 2022, will be provided to the committee. Oral presentations from the public will be scheduled on October 20, 2022, between approximately 1 p.m. and 2 p.m. Eastern Time. Those individuals interested in making formal oral presentations should notify the contact person and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation on or before September 27, 2022. Time allotted for each presentation may be limited. If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open public hearing session, FDA may conduct a lottery to determine the speakers for the scheduled open public hearing session. The contact person will notify interested persons regarding their request to speak by October 3, 2022.
